Hiring Manager
Lucid Outsourcing Solutions
Jodhpur, Rajasthan, India

Subject: Application for Software Engineer – Fresher

Dear Hiring Manager,

I am excited to apply for the **Software Engineer – Fresher** position at Lucid Outsourcing Solutions. With a strong foundation in **MERN Full Stack development** and **SQL**, I enjoy creating web applications that are both efficient and user-friendly. I am enthusiastic about contributing to a company that thrives on innovation and delivers meaningful digital solutions.

During my studies in **B.Tech [or relevant degree]**, I worked on building and testing web applications using **MongoDB, Express.js, React.js, Node.js, and SQL**. These projects helped me strengthen my understanding of **object-oriented programming, database management, and full-stack development practices**. I also take pride in my ability to analyze problems, debug code, and ensure smooth software functionality.

What excites me about Lucid Outsourcing Solutions is your dedication to **supporting startups, building MVPs, and providing adaptable digital solutions**. I am eager to collaborate with your team, learn from real-world projects, and contribute to creating software that truly meets user needs.

Here are a few strengths I bring to the role:
- Proficiency in **MERN Full Stack** and **SQL** for building scalable applications
- Quick adaptability and willingness to learn emerging technologies
- Strong problem-solving, debugging, and testing skills
- Ability to work effectively in teams and communicate technical ideas clearly

I am genuinely motivated to be a part of your team and contribute to Lucid Outsourcing Solutions' vision of delivering **innovative, reliable, and high-quality IT solutions**. I would be thrilled to discuss how my skills and enthusiasm align with your projects.

Thank you for considering my application. I look forward to the opportunity to contribute to your innovative work.

Sincerely,
Amit Gupta
